Anoja Recycling, LLC

**Re: Required Submission of Information
Oceana Salvage Site, Virginia Beach, VA**

Dear Mr. Anoja:

The U.S. Environmental Protection Agency ("EPA") is seeking information concerning a release, or threat of release, of hazardous substances, pollutants or contaminants into the environment at the Oceana Salvage Site in Virginia Beach, Virginia (hereinafter the "Site" or "Oceana.").

As you are aware, for more than five decades the Site has been operated as an auto salvage and recycling yard. The Virginia Department of Environmental Quality ("VADEQ") referred the Site to EPA for rededication. EPA's sampling found elevated concentrations of lead in the soil as well as in waste piles at the Site. EPA has information indicating that you have conducted business activities at and/or adjacent to the site.

Pursuant to the legal authority of Section 104(e) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended ("CERCLA"), 42 U.S.C. Section 9604(e), EPA has the authority to require Anoja Recycling LLC (henceforth "you") to furnish all information and documents in your possession, custody or control, or in the possession, custody or control of any of your agents, which concern, refer or relate to 1) the identification, nature and quantity of materials which have been or are generated, treated, stored or disposed of at the Site and 2) your ability to pay for or perform a cleanup at the Site.

An information request letter similar to this one was already sent to you and received by you in recent years (Enclosure 5). EPA has no record of any response from you. Please be advised that Section 104 of CERCLA, 42 U.S.C. Section 9601 (33), authorizes EPA to pursue penalties for failure to comply with that section or for failure to respond adequately to required submissions of information. In addition, providing false, fictitious, or fraudulent statements or representations may subject you to criminal penalties under 18 U.S.C. Section 1001. The

information you provide may be used by EPA in administrative, civil, or criminal proceedings.

Instructions for responding to this required submission of information are provided below.

INSTRUCTIONS

1. You are entitled to assert a claim of business confidentiality covering any part or all of the information you submit. **Re: 1040 S. Oceana Boulevard
Virginia Beach, Virginia**

Dear Mr. Anoia:

The U.S. Environmental Protection Agency ("EPA") is seeking information relating to both the liability of Anoia Recycling, LLC and its ability to pay for or perform a cleanup at the Oceana Salvage Site, located at 1040 S. Oceana Boulevard, Virginia Beach, Virginia ("Site" or the "Facility").

For roughly five decades, the Site has been operated as an auto salvage and recycling yard. The Virginia Department of Environmental Quality ("VADEQ") referred the Site to EPA for rededication. EPA conducted sampling at the Site, which shows concentrations of lead above action levels from contamination in waste piles and in the soil on the Site. EPA believes that there is a threat to public health, welfare and the environment due to the threat of release of hazardous substances from the Site. The presence of hazardous substances at the Site and the past, present, and/or potential migration of hazardous substances from the Site constitutes an actual and/or threatened "release" as defined in Section 101(22) of the Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended, ("CERCLA"), 42 U.S.C. § 9601(22). The hazardous substances at the Site include, but are not limited to, lead, which is a hazardous substance within the meaning of Section 101(14) of CERCLA, 42 U.S.C. § 9601 (14), and 40 C.F.R. §§ 302.4 and 302.4(b).

Pursuant to the authority of Section 104(e) of CERCLA as amended, 42 U.S.C. § 9604(e), EPA has the authority to require Anoia Recycling, LLC, as the present operator of the Site, to furnish all information and documents in its possession, custody or control, or in the possession, custody or control of any of its employees or agents, which concern, refer, or relate to the identification, nature and quantity of materials which have been or are generated, treated, stored or disposed of at the facility and its ability to pay for or perform a cleanup at the above-referenced Site.

Section 104 of CERCLA authorizes EPA to pursue penalties for a party's failure to respond adequately to required submissions of information. In addition, providing false, fictitious, or fraudulent statements or representations in response to this information request may subject your company to criminal penalties under 18 U.S.C. § 1001. The information you provide may be used by EPA in administrative, civil, or criminal proceedings.

Instructions for responding to this required submission of information are provided below.

INSTRUCTIONS

NOTICE OF POTENTIAL ENFORCEMENT ACTION

EPA hereby advises you that your failure to respond fully and truthfully to each question, or to justify adequately your failure to respond, may subject you to an enforcement action by EPA, pursuant to Section 104(e)(5)(A) of CERCLA, 42 U.S.C. § 9604(e)(5)(A). This section authorizes EPA to issue an order directing compliance with an information request made under the statute "after such notice and opportunity for consultation as is reasonably appropriate under the circumstances." This letter constitutes such notice.

In addition, Section 104(e)(5)(B) of CERCLA, 42 U.S.C. § 9604(e)(5)(B), allows EPA to seek judicial enforcement of an information request and authorizes the federal district courts to assess a civil penalty not to exceed \$32,500 for each day of non-compliance. In recent decisions, courts have assessed significant penalties against parties which had not complied with EPA information requests.

If you have any questions concerning this matter, please contact Leo J. Mullin, Cost Recovery Expert, at (215) 814-3172 or have your attorney contact James Van Orden, Assistant Regional Counsel, at (215) 814-2693.
